

Listing 5

```
function loadProductDetails(e)
{
    // prepare URL for XHR request
    var sUrl = "xhr/itemDetails.php?query=" + this.id;
    YAHOO.log("calling url " + sUrl, "xhr");

    // prepare callback object
    var callback =
    {
        success: function(oResponse)
        {
            YAHOO.log("XHR transaction was successful. Response text: " +
                oResponse.responseText, "xhr");
            var details = YAHOO.util.Dom.get("product-details");
            details.innerHTML = oResponse.responseText;
        },

        failure: function(oResponse)
        {
            YAHOO.log("Failed to process XHR transaction.", "xhr");
        },

        timeout: 7000
    };

    YAHOO.util.Connect.asyncRequest('GET', sUrl, callback);
}
```
