

We are a highly exciting European start-up company aiming to build the leading marketplace for private apartments. Wimdu was founded earlier this year is now built up rapidly by a high-performing team of developers and entrepreneurs. We currently host >12'000 properties in more than 50 countries on Wimdu.

We are looking for an enthusiastic person for an immediate start, to support the team in Berlin as:

Senior - Ruby on Rails Developer (m/f)

-fulltime-

Your tasks:

- You are implementing new features
- You work in a team and you will create „your“ part of the platform self-dependent
- You extend existing codes and develop new codes inside

Your profile:

- You are a developer (m/f) with heart and soul - with a theoretical background of a study (e.g. information technology) or an comparable education
- You've been working on several Rails-projects
- You are passionate writer of Ruby code
- You are open, communicative and you like it to work in a team
- You were part of an open source project
- You've been working in an agile environment

Our offer:

- You will be part of a highly professional and entrepreneurial work environment
- You will be a part of the development of a fast-growing Internet-start up
- You will benefit from flexible structures, flat hierarchies and motivated and talented colleagues
- You will receive a performance-related, attractive and competitive remuneration and many development opportunities

Does this sound interesting to you? Please send your detailed application, including your earliest starting date and salary expectations to: **jobs@wimdu.com**

If you have any question, please do not hesitate to contact us. We look forward to hearing from you!
